FOR IMMEDIATE RELEASE:

COTTON TOWN MUSIC CLUB TO HOST 'PARTY AT THE PIT'

'Cotton Town Music Club' (CTMC)* are set to host their first clubnight this Halloween, 31st Oct 2008, at Jackson's Pit in Oldham.

The night will include performances from Acoustic artist "Tea for One", who has recently returned from a succesful tour of North America, and local band "Sleazy McGuires" before CTMC take to the stage themselves. Following the live music the band will be taking turns in the DJ booth playing you their favourite tracks until the early hours.

Following on from a very busy and successful 2007, when CTMC played venues all over Manchester and the North of the UK, including the Cavern Club and performances for record labels in Leeds and Glasgow, the Cotton Town boys have been just as busy in 2008 behind the scenes. A lot of time has been spent writing new songs and recording their debut EP (which is available to purchase online, download via itunes or at any CTMC gig and good local record stores).

The band are now ready to return to the stage with a healthy bunch of new tunes and a yearning to get in front of a live audience again as often as possible. Lead singer Greg Rainey says "Since last year we've added Andy (guitarist) to the band and revisted all the songs we had. We've listened to the feedback we've been getting over the last 12 months, and have been working hard to make the songs we have even stronger to compliment the new material we've written. We're happy that the new setlist we've put together will blow audiences away"

CTMC are raring to go and have recruited a new manager, written new songs and are also sharing rehearsal space with the recently signed "Twisted Wheel". CTMC are already taking bookings for 2009 and have been put forward for consideration to play at the SXSW festival in Austin, Texas.

Given the way things are looking, it won't be long before CTMC are too big for these small venues, so make sure you catch them while you can. Details of future gigs can be found on their website, or through myspace and facebook.
